Response Box

Topic Heading: Chapter 5 – Issues & Options for Luton: Sustainable Infrastructure & Funding

Question Number: 55 – What infrastructure is required in Luton & how should this be provided for?

Answer:

Appropriate provision should be made for developer funded fire & rescue, police & ambulance infrastructure & facilities, reflected in text/ policy recognition within the Local Plan & budgetary recognition in the IDP

The principal infrastructure policy should make reference to the requirement for developer funded fire & rescue, police & ambulance infrastructure/ facilities – with a cross reference to the IDP as appropriate;

The policy referable to each strategic housing allocation (>250 dwellings) should have a criterion included which requires developer funded fire & rescue, police & ambulance infrastructure/ facilities – with a cross reference to the IDP as appropriate;

The Glossary should include reference to fire & rescue, police & ambulance infrastructure/ facilities within the definition of “infrastructure”

Attention is drawn to the Bedfordshire Fire & Resue Service (BFRS) evidence base submission dated August 2026, which accompanies the BFRS form-based responses

This outlines the role of BFRS as an essential social infrastructure provider.

The Service is operating at ‘capacity’ & the planned housing/ population growth & employment development would lead to a significant increase in demand on the Service, requiring developer funded mitigation & management measures to be secured – in order to provide for resilient & sustainable communities
