Thank you for consulting the Forestry Commission on your new local plan.

We have no specific answers to the questions posed in the scoping consultation.

However, we have prepared an information guide for local authorities undertaking the new local plan process to ensure trees and woodlands are appropriately considered within planning and the plan making process, together with some suggestions for policy development that you may wish to consider.

The Forestry Commission has a requirement to assist in the preparation of Local Plans. We are keen to work proactively with your authority from the earliest stages of plan preparation to help ensure tree and woodland considerations are effectively integrated into your evidence base and policies.

If you would like to discuss your emerging Local Plan, arrange a meeting, or seek advice on any tree, woodland or forestry matters, please do not hesitate to contact me.

Best wishes

Sandra
