Your Ref: Luton BC - Call for Sites

Dear Sir or Madam,

RE: Luton Borough Council - Call for Sites

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Natural England does not require consultation on call for sites as we do not put forward sites, land or buildings that could have the potential for housing. Once further work develops on which sites will be taken forward for allocation please consult Natural England so we can offer advice on their suitability with regard to impacts on and opportunities for the natural environment.

Any queries please contact consultations@naturalengland.org.uk

Yours faithfully,

Sharon Jenkins

Natural England offers two chargeable services - the Discretionary Advice Service, which provides pre-application and post-consent advice on planning/licensing proposals to developers and consultants, and the Pre-submission Screening Service for European Protected Species mitigation licence applications. These services help applicants take appropriate account of environmental considerations at an early stage of project development, reduce uncertainty, the risk of delay and added cost at a later stage, whilst securing good results for the natural environment.

For further information on the Discretionary Advice Service see [here](#)

For further information on the Pre-submission Screening Service see [here](#)
